OMApp Terms of Use

These Terms of Use are applicable to all users of OMApp ("the service"). Users should read, understand and accept these Terms when accessing this service. If a given user has not done this, or does not agree with the contents of these Terms of Use, that user should not create an account and should not make use of any of the services provided via this service.

By accepting these Terms of Use, the user enters into an agreement with UoM ("the service provider") made up by the contents of these Terms, in order to regulate the user's access and use of the service. Users which accept these Terms of Use hereby represent and warrant that:

- They accept to be bound by these Terms of Use, either individually, or in representation of an organisation;
- They are capable, under the terms of the law applicable to them, to be legally bound by and comply with these Terms of use;
- Their use of the service will be carried out in accordance with all applicable laws and regulations.

For information on the processing of personal data on users which is carried out via the service please see the Privacy Policy.

1. Services provided

OMApp is cloud application for automatic image mosaicking and georeferencing. The application is designed to support several users, whereby every user is able to upload a set of captured images via a web interface, begin their processing and make an overview of already created maps. The user also has the ability to download the maps in standard GeoTiff format and use them in one of the existing GIS tools. The service uses numerous open source image processing tools and libraries, where the most computationally demanding among them are able to perform multi-core parallel processing, which provides a better usage of the cloud resources.

2. Copyright / Intellectual Property

Users may not use the service in violation of the copyrights, trademarks, patents or trade secrets of third parties, nor shall they utilize the service to publish such materials in a manner that would expose them to public view in violation of the law.

3. Membership or subscription fees

The service is free for every user. Registration is required to process images, while public maps can be viewed without registration. You agree to keep your password confidential and will be responsible for all use of your account and password.

4. User data protection

The output of the service belongs to the users and we have no authority to use these results for our own benefit or to share them with others. Other users can only access maps if the owner has marked them as public.

5. Liability

The service shall not be liable for any damages suffered as a result of your use of this website or your use, modification, submission, copying, distribution, or downloading of the materials. UoM takes all necessary measures to achieve the availability of the service; however, UoM does not provide any availability warranty in any case such that it can be held accountable and/or responsible for direct or indirect damages which are due to loss of the service for any time period.

6. Disclaimer

The materials on the website are provided "As is" and all express or implied conditions, representations and warranties are disclaimed by the service and its third party providers. Neither the service nor its third party providers make any representations, warranties, or guaranties as to the quality, suitability, truth, accuracy or completeness of any of the materials contained on the website.
